Abstract

Click here and insert your abstract text. The abstract of a research is a succinct summary of the article's purpose, main points, method, findings, and conclusions. The abstract should be a clear, concise, one paragraph summary and must not be more than one page. The abstract's length should be a minimum of 200 words and a maximum 400 words and be confined within a single paragraph. It should be informative rather than descriptive. The abstract should state briefly the purpose of the research, the principal results and major conclusions. An abstract is often presented separately from the article, so it must be able to stand alone. For this reason, references should be avoided. Also, non-standard or uncommon abbreviations should be avoided, but if essential they must be defined at their first mention in the abstract itself. While the first line of the abstract is not indented, the line containing the keywords that are directly follow the paragraph should be indented. The abstract must be submitted in a .pdf file format.

Keywords: Type 5–10 keywords here, separated by semicolons;
